*While there is growing interest in IFRS within the US, interest*

outside the US has exploded. Weygandt's fourth edition of *Financial Accounting: IFRS* highlights the integration of more US GAAP rules, a desired feature as more foreign companies find the United States to be their largest market. The highly anticipated new edition retains each of the key features (e.g. TOC, writing style, pedagogy, robust EOC) on which users of Weygandt *Financial* have come to rely, while putting the focus on international companies/examples, discussing financial accounting principles and procedures within the context of IFRS, and providing EOC exercises and problems that present students with foreign currency examples instead of solely U.S. dollars. Hick's name appears first on the earlier edition. Acclaimed as the standard reference work on the law relating to time charters, this new edition provides a comprehensive treatment of the subject, accessible and useful both to shipping lawyers and to shipowners, charterers, P&I Clubs and other insurers. It provides full coverage of both English and U.S. law, now updated with all the important decisions since the previous edition. The English decisions covered in the new edition include: *The Kos* (the Supreme Court on the effect of withdrawing a ship with cargo on board); *The Athena* (nature of off-hire; meaning of 'loss of time'/'time thereby lost'); *The Kyla* (damage to ship and frustration); *The Silver Constellation*, *The Savina Caylyn* and *The Rowan* (oil company approval of chartered ships); *The Captain Stefanos*, *The Saldanha*, *The Triton Lark* and *The Paiwan Wisdom* (effects of piracy); *The Kildare* and *The Wren* (damages for early termination); *The T S Singapore* (off-hire where ship going 'towards but not to' the port ordered), and *The Lehmann Timber*, *The Bulk Chile* and *The Western Moscow* (owners' liens) The new edition also features many significant new U.S. decisions, including: *Stolt-Nielsen v. Animal Feeds Intl.* (Supreme Court rules class-action arbitration not permitted unless parties agree in arbitration agreement); *ATHOS I* (Circuit Court finds that safe berth provision in charterparty is a warranty and not merely a due diligence obligation); *The M/V SAMHO DREAM* (arbitrators direct petitioner to post \$14.2M security on respondent's counterclaim) and *Maroc Fruit Board v. M/V VINSON* (CP arbitration clause incorporated in bill of lading not "signed" or "contained in an exchange of letters or telegrams" under NY Convention). A world list of books in the English language. Includes Proceedings of the annual meeting. Cases and Materials on Company Law guides students through the

complexities of company law with a broad selection of source materials that are placed in context through clear commentary. It covers all the principal areas of company law including the issue of securities and insolvency. The book concentrates on how the law facilitates and regulates the operation of companies, both large and small, reflecting the realities of current practice. To help students understand the significance of the material presented, each section is preceded by a concise introduction. Similarly, each case is preceded by a statement of its legal significance and a summary of the main facts. The book has been fully revised to incorporate the groundbreaking changes to domestic company law as a result of the Companies Act 2006. The new edition has been made easier to navigate as a result of a new two colour text design that clearly differentiates extracted material from the authors' commentary. Vols. for 1970-71 includes manufacturers' catalogs. Covers receipts and expenditures of appropriations and other funds. The eighth edition of *Advanced Financial Accounting* is an up-to-date, comprehensive, and highly illustrated presentation of the accounting and reporting principles used in a variety of business entities. The new edition continues to provide strong coverage based on continuous case examples that tie all of the disparate details of *Advanced Accounting* together for the students. The text is highly illustrated with complete presentations of worksheets, schedules, and financial states so that students can see the development of each topic. Inclusion of all recent FASB and GASB pronouncements and the continuing deliberations of the authoritative bodies provide a current and contemporary text for students preparing for the CPA Exam and current practice. The book's building block approach introduces concepts with simple examples and then gradually introduces complexity, allowing students to easily keep pace with the material. This successful textbook is highly regarded, especially in programs that want a solid, comprehensive text for students who sit for the CPA exam. The book is loosely organized into five sections which allow for flexibility in sequencing the topics. Many of the topics are illustrated by examples using a continuous case involving a fictitious company called Peerless Products Corporation and its subsidiary, Special Foods, Inc. He weaves all of them together seamlessly, and includes numerous examples to illustrate his primary points. I have applied the knowledge I've gained from his body of work, and the benefits to me—and to my customers—have been immediate, significant, and ongoing." —Brent Uren Principal, Valuation & Business Modeling Ernst & Young® [www.ey.com](http://www.ey.com)

"Ron Baker is a revolutionary. He is on a radical crusade to align the interests of service providers with those of their customers by having lawyers, accountants, and consultants charge based on the value they provide, rather than the effort it takes. Implementing Value Pricing is a manifesto that establishes a clear case for the revolution. It provides detailed guidance that includes not only strategies and tactics, but key predictive indicators for success. It is richly illustrated by the successes of firms that have embraced value-based pricing to make their services not only more cost-effective for their customers, but more profitable as well. The hallmark of a manifesto is an unyielding sense of purpose and a call to action. Let the revolution begin." —Robert G. Cross, Chairman and CEO, Revenue Analytics, Inc. Author, Revenue Management: Hard-Core Tactics for Market Domination
